## Orange Wine

Oranssiiviinit ovat valkoviinejä, jotka ovat olleet valmistuksen aikana kontaktissa rypäleiden kuorien kanssa. Yleensä valkoviinien valmistuksessa kuoret poistetaan heti rypäleiden murskaamisen jälkeen. Rypäleiden kuoret voivat olla oranssiiviinin valmistuksessa mukana muutamasta päivästä jopa vuoteen asti, mikä antaa viiniin paljon makua. Nanit Orange-viinissä kuorikontakti on kestänyt kymmenen päivää.
